A committee in behalf of the "new Congregation", requested of the townsmen "repairs on the new meeting house, "there being great neglect of it". Comm. were Geo Griswold, Timo. Thrall, Job Drake
Writing dated July 27. 1676.
Townsmen replied by letter, Aug 15. 1676 –
say they know of no vote to repair both houses – we repair the old one looking at it to be the proper estate of the town from the first till now. As to the town house, we look upon it to be the property of the town, yet it being taken into the hands of some part of the town and improved to another use then was agreed by the town, & by them made incapable of the use for which it was first intended; we do not think it is the work of the townsmen to meddle with it till it be put in the state it was in at the first

They say they have perused the letters of Rev Mr Oakes and Mr Mather in answer to ours respecting Mr Foster & entertain their testimony of him as to his piety and parts with great satisfaction & thankfulness. There seemeth to us a doubtfulness concerning his persuasion in point of church order, by reason of which we cannot advise you to make immediate application to him. Think it advisable to send down Capt Newberry & John Loomis with letters from us to Mr Oakes & Mr Mather that they would ascertain his judgment in the premises — so that then we can assent that he is congregationally persuaded according to synod of 48 & 62 — if this prove so, then they Mr O. & Mr M. are entreated to lend a helping hand to persuade Mr Foster to come to Windsor &c

David Wilton had all these lots between burying yard & Walter Filer. Whether he bought F. Gibbs and Th Barnes's lots of Gibbs, or of Wm Hill, does not appear The 4 lots contain about 4 1/2 acres.

D Wilton also purchased of Wm. Hill, the side hills, S. of Burying yard and West of Palisado to highway — about 5 acres more.

Thos. Ford's grants, &c.

p. 40. Town gave him width of 83 to end of 3 miles — South Line strikes Podunk river, & goes S. of it, then N. of it again. He has all between the 83 wide, and the River Podunk in the crooks & turns, till it comes to where the creek of the swamp falls into the Podunk; — except a ridge near the great river, that John Lyman bought of Whitehill.

He had granted all swamps west of his Podunk lands to Bray Rossiter, who bounds him N. with all uplands in said bounds back to end of 3 miles.

Also the swamps & uplands betwixt John Porter & Bray Rossiter

Also, all land S. of his former grant, home to Podunk River and to end of 3 miles, as line runs between Hartford and Windsor.

Thomas Ford has all woodlands & swamps East of the sw. mile from S. line of Bray Rossiter, 158 rods wide, to end of bounds — This comes to N. line of his 83 rods wide.

Thomas Ford sold to Edward Elmer 90 rods by Great (Swamp?) river, and 83 in another place, from John Loomis N. (he bounds on Meadow) 550 acres. Thos. Ford S. all the way to end of 3 miles. In Upland, Owen Tudor bounds it E. N.

Podunk River S. at lower end of meadow where brook of the Swamps comes in, thence E. as river runs to the upland; then N. of the river, and line to begin & run parallel with the North line 2¼ points S. of E. till it is cut off by Hartford bounds. — Quantity not given.

Ford consented to the sale

South of Podunk River — (Fitch seems to have had part of the upland perhaps most of it.

In Nov. 1662 Thos. Burnham of Hartford petitioned for the Town's right to the Indian Land, South of Podunk river. Town gave up to him their right on conditions — He was not to prejudice or hurt the Indians, or molest them in any manner — He is now of Hartford, but agrees to build in Windsor and be taxed in N. He is to relinquish all claim to Fitch's upland.

He sold land to Edward King. King owned land there before.

Edward Elmers Land.

Conn II His children say in a petition May 1723. that he died about 1675 much in debt, leaving 5 children, Samuel, Edward, John, Mary, Sarah.

He purchased, they say of Thos. Ford, 1660 a tract of upland in Windsor, having Owen Tudor north, brow of the upland hill W. said Thos. Ford S. by a line running 2½ points S. of E. from a tree on said hill. The breadth at West end was 180 rods N. & S. and it run E. 3 miles from the Great River; but Owen Tudor's line runs almost 3 points S. of E. and at about two miles distance E. from the river the South line strikes Hartford north line; so the east end of Elmers lot is considerably narrower than the west end.

55 rods wide on N. side, next to Tudor, they sold to Simon Wolcott in 1677 (to pay debts)

27 rods wide next to Wolcott was sold to Nathaniel Bissel same year – (or N. Loomis?

82 rods wide through – leaving 98 rods wide at west end.

Thos Ford's grant Nov. 1640. at Podunk –

Roads in East Windsor.

Before 1726, there was but one country or King's highway, leading Eastward from the N. & S. Street. There were several ways used by town's people, laid by town or individuals. The King's highway was a little below Scantic river at David Bissel's house — and extended through the 3 miles & 40 on beyond.

In 1726 a county court's jury laid out 3 highways running eastward from the main N. & S. road — all South of the Scantic: and a large bill of expense for land &c was reported — This produced a great deal of petitions on both sides the river, & petitions to Gen. Court to nullify these new roads or part of them. — They laid the blame to Major Wolcott, and said these new highways "were calculated for the meridian of Major Wolcotts interest." He probably owned large tracts of land eastward. They say Hartford has only one Kings highway running eastward. —

Mostly the roads run parellel with the lots of land. The lines of the lots S. of Scantic were not at right angles with the great N. & S. road but inclined several degrees to the South, as follows: —

All the inhabitants seemed to be on the old country road, leading N. & S. This might have been a few elsewhere &c. The following lots were contiguous, & the owners.

1, 2 William Stoughton; 2 Capt Thos. Stoughton next S.
3 Deac. Drake &c. 4 Lieut. Moore
5 John Moore 6 Jos. Hoskins
7 [illegible] Wolcott. 8 Maj. Wolcott. next South

1723 made Stoughtons lot 65
Deac Job Drakes 20 rods
Same Moore next.

Owen Tudors lot: Land of Rossiter, & probably the 11 rods N. of it, & 18 of Ford S. of it — 18 + 75 + 11 = 44. Samuel Tudor owned it 1720 — & calls it 43½ rods wide from country road to end of 3 miles — Wm Wolcott N. Roger Wolcott N. Henry Wolcott S. Perhaps it was not Rossiters lot.

The Land given to Burnham 1662 by Windsor is said to be, 1720 that which was gained to Windsor by altering the line from due East to some degrees S. of E.

The Division lines, between the above 8 lots, and several lots S. of them, on the western or meadow end, varied considerably as measured by Thos. Kimberly 1723 — viz. E. 33½ S — E 32°40' S. — E. 32°10 S E 31.20 S. E. 30 S. E. 33.20 S.

In all the preceding accounts - 1647 - 1653 - money is named or charged or credited but a few times — business was done without money - every thing almost was in barter - exchanging one thing for another - making terms - one man to get a debt of 10£ of another took 5 or 6 persons as paymasters, who happend to owe that other man - There is no end to these discounts or terms. Wampam was used for money to some extent.

The Wm Pitkin homelot, given to his sons, having Richard Case S. — (See Plan in Red Book 1694

Richard Case owned next South — gave 1690. his homestead Westy Country road, South part next to Daniel Bidwell, to son Richard, & other part & 10 acres Easty Country road, to son John, & 10 acres still east to dau Mary Case.

[Both Wm Pitkin & Richard Case built on the road on the bank of the meadow, & not on County road.

1721 Sept. Mary Phelps, wife of Jos. Phelps of Simsbury, & her husband, sold her 10 acres above to bro. John Case it being land given by her father R.C. dec'd. — Wm Pitkin & Ozias Pitkin N. John Case W. heirs of Dan'l Bidwell S. remainder lot E.

Also she sold her 1/3 of the westy lot — it belonged she says 1/3 to Richard 1/3 to John, & 1/3 to herself. [Her brothers were both of Hartford 1721.]

Dec. 1714. Richard Case sold to his brother John, part of their father's homelot next to Deac. Bidwell: — began at Country highway & ran west half the width, having said highway E, Deac Bidwell & Sam'l Woodbridge E & my own W. brother John W.

D.D. 1687 / 1719. John Bidwell had next South of Case & his son Daniel C had it. (See Hartford Probate for these 2

The Samuel Woodbridge Lot, in deed above, 1714, came thus: When the Society built a ministry house Daniel Bidwell sold or gave 2 acres to — for Rev. S. Woodbridge, D. Bidwell S. & W. John Case N. highway E. — Col. Wm Woodbridge probably lived here.

Daniel Bidwell, 1700, deeded to Widow Sarah Bidwell 11 acres — R. Case his N. County highway to Mill S. said D. B. E. & W.

1712 The Society deeded to Rev. Sam'l Woodbridge for settlement 13¾ rods at E. & W. end, 28¾ rods N. side and 23 rods South side — highway E. D. Bidwell W. & S. John Case N. with house &c (Same as 2 acres above.

The County highway to Mill seems to have been on Bidwell's land (or on S side)

John Olcutt seems to extend North to this way to Mill.

East Hartford.

Visited it with Nathaniel Goodwin and 2 [illegible]
Oct. 22 1842 – Walked out to the Mills on Hockanum river on the S. side of the river, & came back on the north side – Goodwin 2 mills at upper dam – one east side – Hudson 2 mills at middle dam on N. side (these 4 are paper mills) and a saw mill on S. side; a grist mill at lower dam, N. side, and saw mill S. side belonging to Goodwin and others. The 3 dams within 60 or 70 rods. when an assemblage of falls and rocks. – Crowells ancient saw & corn mill were on North side – perhaps at the lower dam where corn mill now is.

From these mills to E. Hartford Street is a mile or a little more, in a direct line; but 1½ miles or more by the shortest road, over the north side – From the mills to Hartford State House call it 3¾ miles.

No falls in the river apparently below these mills: about a mile above is another Fall, and the old powder mill of Samuel Pitkin. The next falls above this powder Mill are in Manchester (old 5 mile) near Western part, where are saw mills.

All the country a sandy plain, except the low lands on Hockanum river – these generally wet and boggy in the lower part, but in the higher parts are used for mowing & pasturing, but too wet.

Measurements by walking –

On E. Hartford Street.

From the ancient road that came from the meadow to the uplands, & across the upland to the Main Street – from this road on Main Street (formerly Thos. Spencer's corner) it is about 66 rods to the next road (Pitkin's road a narrow, 2 rod lane) north. This Pitkins road is about 100 rods long to the road on bank of the meadow: the old road, first noticed, may be over 100 rods to the meadow bank: From this ancient road going South it is about 37 rods to the new road leading to Hartford Bridge; on Main Street. From the ancient road (N. side) to the South line of burying ground, old part, is 25 or 26 rods; Burying yard, old part, about 10 rods wide – new part added on S. side (not coming to street) is about 5 or 6 rods wide.

Great Eastern road leaves Main Street 2 or 3 rods North of Pitkins Lane on the other side, or from S. line of burying ground – 26+66+3 rods = 95 rods. – It follows from 100 rods or so the old line of lots apparently – then separates; one goes to paper mills, keeps near the Hockanum valley & proceeds on Eastward; the other called the Turnpike goes a little more to the north; is Boston road, &c.

Pitkins lane is not parallel with the ancient road; between them is 66 rods on Main Street, and 80 or 85 rods on road by meadow – Pitk does not run with the old lines

Main Street crosses all the old Lots obliquely, the Street running several degrees Easterly North, or W. of South. Thus:

} Lines successively N. old road from meadow to upland. They agreed 1673.4 to alter their lines from a due E. & W. course "from the rear of the swamp lots to the highway on the upland"
The line between Pitkin & Case was fixed, and then the lines between the others made parallel. Provision was made to pay Olcott something if he should lose part of his land.

The highway on the upland was ordered may 1670 by Gen. Court, in the towns on the East river – to be on east side of river, & 6 rods wide. (as an equivalent apparently) the lots were all to extend 20 rods eastwardly, beyond the 3 miles. Willis's lots extended to 4 miles 1670 – 1 mile added.

1672 Act. Hartford to extend 5 miles east of former bounds.

Windsor Petition, May 13. 1670

"The humble application of the dessatisfied and grieved inhabitants of the town of Windsor

May it please this honord Court once again to take into serious consideration, the divided and dishressed condition of their supplicants at Windsor, and at last to afford us some relief, that our breaches may be healed, our comforts revived, and the gospel run & be glorified amongst us. It hath pleased this honord Court by sundry continued acts to lead us into that posture that we are at present stand in. And we are yet looking up unto yourselves as instruments under God for a more full, thorough, and united settlement in the worship of the Lord. That unto which we have humbly to request & earnestly to desire at your hands is, that we may be one in the service of God, and seeing that by Providence, we have now two officers of Christ settled amongst us (which are no more than the greatness of the place and our own necessities call for) that they may at least, jointly & unitedly carry on the divine exercises of preaching & prayer, on the Sabbath day; if no nearer a union can be obtained at present. The reasons that persuaden us of the religious ness & equity of our request herein (which we hope will also be persuasive unto you) are as follows -

1 We are strongly & grounddly apprehensive that it will be acceptable to the town of Windsor collectively taken, and that the body of the plantation is daily breathing after it: and that a division at the desire of a few, should be preferred before a union at the desire of many, will be but entertained matter for others as well as ourselves, to lament.

2 We have our rights, endues & shares in the place of divine Worship, as well as our brethren; all we desire is a proportionable improvement of what is our own; should we covet after or claim the full improvement of the meeting house on the Sabbaths (as other brethren do) we doubt not but they & the whole world would suspect the inequality & injustice of it

3 We thank God, 'tis the same gospel truth that are preached by one minister & by the other, and to find out the reason why one must take all the work to himself, & the other must be silent & have his mouth stopped, when we have need of variety of gifts, doth puzzle wiser heads than ours.

4 The experience we have had, doth give us a sufficient taste of the ruins of division: if there can be no union obtained by all endeavors that can used we are apt to think, that a little time will bring such desolations upon us, that will be uncomfortable for those that could have healed our

Windsor Petition — continued. 1670

— breeches, and remedied our disunions to review; more reasons might be added, but these may be sufficient to leave a testimony of our desires & thirstings after peace & unity. We doubt not, but it will be easier to find out other arguments than to answer these, for so plain, known and commanded a duty: we are not discouraged to prosecute this motion, though we have often done it with little success; and do hope we shall not be ashamed to follow it from time to time, both with ourselves & our brethren at home, till something of that nature be granted

1672 May 9. 66 of the inhabitants of Windsor petitioned Gen. Court. They had been informed that Capt. Newberry & others had applied to the Court for a large tract of land on the east side of the river adjacent to our town bounds; and had heard that the request of those persons had been complied with, viz. that in case the township be not in a short time concluded to be carried on, then those persons aforesaid have said lands. They pray that the lands may not be given to Capt N. & others, till their reasons against it have been heard by the Gen. Court, either at this session or the next. Those lands are part of the purchase belonging to Windsor, as we can satisfy your honors; we have the original deed ready to present. To give those lands to one or two persons will much prejudice the general benefit of your petitioners and the generation descending from the present inhabitants of Windsor.

Windsor Town meeting at seven an hour high. In 1667 Oct. in the time of their religious difficulties the G. Court ordered that the freemen & house-holders of Windsor & Hadasac should meet "at the meeting house by seven an hour high in the morning" to vote in regard to Mr Chauncy &c. Mr Wolcott to preside. There were 86 votes in favor of Mr Chauncy's continuance — 52 against it.

Mr Chauncy began to preach in Windsor as early as 1667 — probably in Spring of 1667 — perhaps in 1666.

p. 3 Mr Mather (probably Samuel) was present in Boston in 1666 or in 1666-7 — & 177. Letters from ministers about Boston June 7. 1666. about Mr Chauncy & Mr Cheaney?

The proprietors & inhabitants of lands in Windsor East of the River, petitioned May 13. 1680. They say "many of us have fair dwellings." as well as lands, East of the river, and are increasing in numbers on that side.
— 5 miles granted to their bounds last session.
— A committee had reported that with this addition they would have meadow & upland for a township.
They tell of the difficulty of attending worship on the West side, having the great river to pass, &c.
Pray to be a township, & for setting a ministr, &c.

Petition Dec 5. 1713.

They say their meeting house stands in the midst between the house of Martha Osborn on the North and John Morton on the South - the distance between these places as the road goes is 8 miles and 220 rods — 57 families live South of the meeting house, and 37 live north of the meeting house

In first mile N. are	10	families;	first mile S. are	14	families
In 2d mile N. "	8	" ;	2d mile S. "	18	"

In last 1/4 mile N. "	6	" ;	Last 1/4 " S. "	7	"
	37			57.	

The people of the South travel double to those of the north to get to meeting. Another meeting house is necessary Our number are so increased. At a meeting a majority voted to set the house near the old one, those living within 3/4 of a mile S. of meeting house voting with the north. We protested against this vote, but they have voted to build since, & to tax the whole society therefor. Request G. Court to fix upon a place or appoint a committee to do it.

East Windsor

The South part petitioned again, May 5. 1715, - desired to be a distinct Society - say they can support a minister - their aged people & children cannot attend meeting now the distance is so great. - ask that all lands within this society may be taxed by the Society.

P.S. They say that rather than Mr Edwards shall want maintenance (as the north part say) they will continue to give him what they now do.

Petition negatived by Gen Court

- Nov this past. a committee had met at E.W. & heard both parties, viz May 15. 1, [illegible], and advised that the house should be set near the old one as they had voted: but suggested that the S. part might in time be a distinct society. The Comm. were Jos. Talcott, T. Woodbridge, Tho. Buckingham. The Committee was called by a vote of the Society of E.W. May 18. 1714.

A list of the estates of the Southern Parts given apparently 1715, perhaps later - 57 names - New names added not on the list of 41.

The whole list of the 57 persons is 2716 £. How this increase is made does not appear - perhaps it included all S. of meeting house. The 5 Wolcotts, John, Henry, Wm. Simon, Roger, all have "Mr." to their names - no others.

Hartford 2d or South Church —

During the ministry of Mr Whiting & Mr Haynes differences of opinion rose, and Mr Whiting and 31 members withdrew from the first church and formed the second, Feb 12. 1669, having the consent of the General Court, and the advice of an ecclesiastical council. They say that of late years, "public opposition & disturbance have been given both by preaching and practice to the Congregational way of church order" which was "for a long time unanimously approved and peaceably practised in this place" — all endeavors to remove that disturbance proving fruitless, they now "dispose themselves into a capacity of distinct walking in order to a peaceable & edifying enjoyment of all Gods holy ordinances" — they declare "the forementioned Congregational way (for the substance of it) as formerly settled, professed & practised, under the guidance of the first leaders of this church of Hartford, is the way of Christ" &c. The main heads of which Congregational way of church order are the following: —

"1st. That visible saints are the only fit matter, and confederation the form, of a visible church.

2d. That a competent number of visible saints (with their seed) embodied by a particular covenant, are a true, distinct and entire church of Christ.

3d. That such a particular church being organized or having furnished itself with those officers that Christ hath appointed, hath all the power & privileges of a church belonging to it: in special; 1st, to admit or receive members: 2d to deal with, and if need be, reject offenders 3d to administer & enjoy all other ecclesiastical ordinances within itself.

4th. That the power of guidance or leading belongs only to Eldership; and the power of Judgment, Consent or privilege, belongs to the fraternity or brethren in full communion.

5th That communion is carefully to be maintained between all the churches of Christ, according to his order.

6th That Counsel in cases of difficulty is to be sought and submitted to, according to God.

The covenant followed —

The Hartford Disputis — according to Trumbull began as far back as 1654 & perhaps before. There were councils of neighboring churches & in 1656 several elders came from Massachusetts to Hartford & gave their opinion and advice. The aggrieved thought the church did not comply with this. T. says.
Aside from this Hartford affair, there were contentions in other places, about baptism, &c. and petitions. In May 1656, a list of grievances complained of was drawn up by some of the Court by aid of the elders, to be presented to the other G. Courts for their advice, (See next page) Massachusetts advised a general council. Connecticut determined on a council Feb. 1657. (See next page) & appointed men to attend. This general council had no particular reference to Hartford. New Haven was opposed to a Council. The Council met June 4. 1657 at Boston. The 21 questions & answers are in Hubbard only a part in Trumbull. This decision inflamed & did not reconcile. — G. Court wished to have the council of 1656 come to Hartford again in 1657, but the aggrieved opposed this, said the church had not submitted to their advice &c. I believe there was no council in Hartford in 1657. Aggrieved withdrew latter part of 1657 & the church undertook to discipline them. G Court forbid. March 1658.

Hartford 1st Church Difficulties 1656–1659
From Colony Records –

May 1656. Several things were presented to Genl Court as grievances by some persons amongst us. A committee was appointed to advise with the Elders of this Jurisdiction, & crave their aid in drawing up an abstract of these things, to be presented to Genl courts of each of the United Colonies, & to desire an answer.

E Connecticut sent questions & Magistrates to Bay. 1656 about baptism &c

Oct 1656. Law against Quakers, Ranters, Adamites.

Feb 1656-7. The Court orders that Mr Wareham, Mr Stone Mr Blinman, & Mr Burrel be desired to meet the first fifth Day of June [1st Thursday] at Boston, to confer about questions formerly sent to the Bay Court, or any other of a like nature that shall be propounded to them by that court, or by our own, with such divines as shall be sent to the said meeting from the other colonies; they to make return of the issue to the G Court.

Also ordered, a copy of the former order to be sent to the four elders, chosen for the Synod, with a copy of 12 questions more which this Court hath agreed shall be sent by the first opportunity to the Governor in the Bay, for the Synod to consider, with the former questions —

The Deputies & deacons in each town are to take care that their Elders be comely & honorably attended, and suited with necessaries in their journey to the Bay & home again; & that the same, with their expense in the Bay be discharged by the Treasurer. The Deputies may press horses, if need be, for the end aforesaid.

Oct "1 Same session (late in time) the court desired the Rev. Elders of the Council, who formerly transacted the differences of Hartford Church to give a meeting to the Rev Elders of the Bay, that have tendered themselves voluntarily to come up hither to consider & consult which way may be most agreeable to the rule, to put an end to the differences."

2 The Court desires that Hartford Church would write to the former council to come together at Hartford; to see if they can compose the differences among themselves in the interim, if not, the former request to be attended.

3 That there may be letters gratulatory returned to the Rev. Elders in the Bay for their respect, and to continue their former resolutions to come up to help in these cases

4 The Court Desires that Mr Stone & the church should, together with their letters of request to the former Council, declare also unto one or more of them in writing, the particulars wherein they are not satisfied with the determination of their council; Mr Daniel Clarke is desired to draw the letters to the elders in the Bay & to the former Council.

"At the same time, Mr Governor, Capt Cullick, and Mr Steele (having no hand in the premisses) did several times express themselves freely in the Court to this purpose; that though they did greatly desire any way that might be discovered to be the way of God, should be attended to for the healing of those said differences in the church of Christ at Hartford; yet being not able, though oft desired, to obtain any thing from the Court, that might make it appear that that which they have done, was, all things considered, the next way of peace according to God: they withheld their vote, but did often expressly desire that the former council might be first shewed the grounds & reasons why the church at Hartford could not submit to the advice given, as the dissenting brethren had done; wherein the council mistook any rule of Christ in their advice, and what was wanting in their advice for their conviction; and if the council did not return a satisfying answer, then they should be willing further means should be attended; yet none of these things could be obtained."

Adjourned to 2d Thursday in April.

March 25. to be kept as "a day of public humiliation" by all the plantations in this jurisdiction, to seek God's direction in reference to the Synod & the other weighty concernments & difficulties of this jurisdiction.

Aug 1657. A true copy of the Council's answer to several questions sent to the Massachusetts from our Gen. Court, being presented to this Court, signed by Rev. Samuel Stone in the name of the rest of the Council, they do order that copies should go forth to the several churches of this colony as speedily, and if any exceptions be against any thing therein, by any church that shall have the consideration thereof; the court desires they would acquaint the next G. Court, that so a still one may be taken for their solution & satisfaction.

Another order against Quakers, Ranters, Adamites, &c.

Oct 14. Thanksgiving for mercies the year past.

Mem 1658. Wednesday, last of the month, Day of Humiliation.

Mem. Order against any ministry or church set up distinct & separate from that which is established by the settled ministry of the place; except by the approbation of Gen. Court & neighboring churches.

Private meetings of Godly persons not to be hindered, as Fasts, conference, &c — nor ~~assemblies~~ absenting of those who cannot attend public assemblies, by weather or water, and the like hindering them.

[There was a Council from Mass. at Hartford in 1657. (unknown to Trumbull.) See under 1659.

A pacification May 3. 1657

Hartford first Church — continued —

March Session. 1657-8 — began 11th Day 9th Month

Windsor Petition referred to — and deferred to next session. Deputies desired to acquaint our Elders, that the court desires them to attend the next session of the Court, to advise & consider what may be most requisite to issue the differences amongst us.

"The Court orders, in reference to the said differences that are broken out in the several churches in this colony, and in special, betwixt the church of Christ at Hartford and the withdrawers, and to prevent further troubles & such sad consequences that that may issue from the premises to the whole commonwealth — It is desired & required by this Court, that there be forthwith an utter cessation of all further prosecution, either on the church's part at Hartford towards the withdrawers from them; and on the other part, that those that have withdrawn from the church at Hartford shall make a cessation in prosecuting their former propositions to the church at Wethersfield or any other church, in reference to their joining there in church relation, until the matters in controversy betwixt the church at Hartford & the brethren that have withdrawn, be brought to an issue in that way that the Court shall determine"

"It is ordered that the Court shall meet together on Wednesday sevennight, being the 17th of this instant at Hartford, where the neighbor Elders are desired to attend the Court, that so their advice & help may be improved to settle upon some speedy counsel for the issuing the present troubles that the churches, and especially the church at Hartford lies under, in respect of the separation by them that have withdrawn from that Society."

March 24. 1657-8.

"It is desired by this court that the church at Hartford and Mr Stone should meet together with those that have withdrawn, to see if it be possible, by a private conference together, to issue upon some mutual conclusions that may put an end unto their unhappy Dissension; that Governor & Dep. Gov. are desired to accompany them in their conference, if it may with conveniency be attended by the Gov. & Dep. and in case the aforesaid parties of difference cannot agree upon a way to put an issue to their troubles, that then, then be letters sent to the Bay Elders & to any among us, or in the other Jurisdictions, for advice what the Court should do in the premises!"

In case there should be no agreement, the
Gov. Mr Wyllys, Mr Talcott, & Mr Stone and
Mr Lord are desired to send letters in the name
of the Court, as before.

Mount 25. 1658. Mr Samuel Stone, Teacher at
Hartford, presented to the Court a petition with
certain propositions; as follows.

"My humble request is, that the questions here
presented may be syllogistically before this Honorable
Court. I hope that some of our withdrawn brethren,
or some other whom they shall provide, will
reason with me face to face.

Quest. 1. The former council of Hartford June 36 is
utterly cancelled and of no force

2. There is no violation of the last agreement
made when the Ruling Elders of Massachusetts
were here, either by the Church of Christ
at Hartford or their Teacher.

3 The Withdrawn brethren have offered great
violence to the forementioned agreement

4 The withdrawn brethren are members of the
Church of Christ at Hartford.

5 Their withdrawing from the Church is a sin
exceeding scandalous dreadful, and of its
own nature, Destructive to this and other
Churches.

6 The controversy between the Church of Christ
at Hartford, and the withdrawn persons, is not
in the hands of the churches to be determined
by them."

154 Wethersfield

August Court 1658. began Aug 18.

Several inhabitants of Wethersfield ~~—~~ presented a petition. The court returned an answer—

The petitioners complained of "a scandalous oath taken by Mr Russel whereby the inhabitants seem ~~a~~ paid to adventure themselves under his ministry."

The court think Mr Russel's oath was ambiguous; but should not be strained to such a height as it is in the petition. The petitioners in that respect are blamable; and Mr Russel not so scandalous as to be unfit to administer in his office. They judge however that Mr Russel should speak more plainly for the future, to the capacity of the hearers, especially in way of testimony; and the petitioners should carefully avoid all unnecessary straining of words & expressions.

Reference is made to a grant to Mr Russel, and the petitioners acceptance of it, which seems to be the cause of the present difficulty in part— "unless (say the record) some convenient means more kindly by their address hather, the paper ambiguous nature, subject to various interpretations, and therefore should be explained and retracted by Mr Russel; The court advise at each party that they walk lovingly together without disturbing carriage each to other."

Mem 9. 1658-9-

Dr Hollister presents a petition respecting the charges of the church of Wethersfield against him, upon which he was excommunicated.

The Court think the Church did not proceed regularly. The Court ordered Samuel Welly & Samuel Boreman to appear to Mr Russel in behalf of Dr Hollister, & in the name of the Court desire, (upon pain of requisition) of him and the Church of W. the particulars charges or offences for which Dr H was censured, & deliver them to Mr. Hollister. (He complained that the charges had not been presented to him).

Mr Treat, Mr Hollister, John Deming are desired & some way of composing their differences — & desire that some churches or persons may be thought of to hear & determine the same

Court desire Wethersfield church to consider the matter & conclude upon some way to issue their said differences.

Hartford past Church — contenued. Aug. 1658.

"In reference to the difference twixt the Church at Hartford and the withdrawers, it was ordered that the ensuing particulars should be presented to each party, as the mind & desire of the Court

1. It is conceived that they should observe and attend that rule of Christ. Act. 15. to debate and dispute their difference among themselves, in the first place.

2 That the Questions in Controversy should be plainly stated and gathered out of their papers, before they debate, as that text holds forth.

3 In case that doth not take nor be embraced that then each party should choose 3 Elders, able, and as indifferent as times will afford, before whom (the question being beforehand plainly stated) the case in difference shall be publickly disputed, who shall endeavor that light & help they can to the issuing the controversy according to God, unto which both parties shall peaceably subject themselves.

4 And in case either the Church or the withdrawers refuse to choose, then the Court to choose instead of that part that dissents, having liberty to the other part to make choice for themselves such able and indifferent men as they can agree upon to be instrumental in issuing these said Differences, by hearing the dispute as before and passing determination thereon; and if either party be dissatisfied with the determination of the persons that are so chosen, that then there may be liberty for the dissatisfied party to object, that so the determination adjudicated & conformed by Scripture & reason

This being propounded the withdrawers were willing to choose as in 3d proposition. The Church of Hartford refused, so in issue the Court on the one part chose Mr Cobbet, Mr Mitchell, Mr Danforth, and for a reserve Mr Brown, & Mr Street for a reserve to them the withdrawers chose, who were Mr Davenport, Mr Norton Mr Fitch.

The several Elders forementioned chosen to assist in the differences at Hartford are requested to come up to Hartford by the 17th of September, to assist in that Service.

It is ordered that letters of request shall be sent from the Court & both parties to the several Elders & the Churches, in order to effect the same" [This Council did not meet]

Ordered that betwixt this and the 8th of September next, each party shall attend the order for stating the questions in controversy, and send as they desire to have debated before the Council: other before the day appointed; and what is neglected to be presented shall not be attended by the Council; also each party shall declare what they will maintain in their questions either negatively or affirmatively, as matter of offence; if no more questions are delivered in, then those already presented shall stand as that which the council is to attend; both parties to send a copy of their questions to the Secretary of the Court. "This Court doth judge it to be the Duty of the inhabitants of Wethersfield to provide for the town of Wethersfield in reference to the ministry"—

Hartford June Court 1659.

Its ordered that the general heads of the charges against the withdrawers shall be sent to them & that they appear at the Courtes October to answer to said charges—

June 29. Humiliation.

+ [This Council June 3. 1659. seems to me, Doubtful: The final Council in 1659 make no allusion to any such council, but mentions one in 1656. and one in 1657. ~~Hoon~~ Trumbull omits the council of 1657— possibly he is mistaken in regard to June 1659.

Hartford first Church — continued

June Session 1659.

"The court Judgeth it necessary that A counsel of the churches of Christ in the Massachusetts should be sent to & desired to afford the help of their reverend Elders & worthy messengers that were of the former Counsel at Hartford, to whom are added by the nomination of the withdrawers, the teaching Elders of Dorchester & Watertown: the churches to be sent to, whose help is requested are Boston, Cambridge, Roxbury, Dorchester Ipswich, Dedham, Watertown, Charlestown Sudbury, seven whom the withdrawers consented to; the Court & the church assenting to and desiring all, or as many as the Lord shall incline or enable to attend the work, unto whose decisive power the withdrawn party is required, the church at Hartford freely engaging, to submit according to the order of the gospel."

The Rev. Elders & messengers of the former council with the other two conjoined, are required to be helpful again "to hear & determine the irreconciled differences at Hartford twixt the church and withdrawn members, because of the experiment that hath been made of their abilities and laboriousness & the good issue that was effected thereby, working a pacification amongst them that were at so vast a distance, & being more apt & ready in the controversy, to discern where the root & occasion of the breach is."

"The Council aforementioned is required to meet at Hartford Aug. 19. the time of their hearing the matters in differences publicely debated according to a former order, to be with all convenient speed after their coming up."

[This Council did not meet at Hartford as Trumbull supposes. They met at Boston Sept 26. & their decision is dated Oct 7. viz Wilson of B. Chauncy of C. Mather of Dor. allen of Ded. Symmes of Ch. Norton of Bos: Eliot — R. Eden. Brown of Sud Cobbet of Ips. Sherman of Wat. Hubbard of D. Danforth of Rox. Mitchell of Cam. Shepard of Ch — Lagmen R. Russel Ch. Edward Tyng Bos Isaac Heath, Rox.

They allude to the great labor of the council of 1656 at Hartford; the poor success of the church messengers since in 657, and the relapse after the pacification of May 3. 1657 — This council had no connection with any thing before the relapse.

Sumin. Wethersfield.

6th Oct 1659. "The court taking into consideration the long and tedious differences & troubles that have been and are still continuing twixt Mr Russel & several members of Wethersfield church & particularly twixt Mr Russel and the Lieutenant. do judge it very necessary that some course be attended for the redress of the same & having long waited to have the parties at difference come to some joint agreement among st themselves upon a way & means of hearing & healing the said differences & not concluded of: this Court doth therfore desire the two churches of Hartford and Windsor to send 2 or 3 messengers apiece, to examine & search into the nature of the differences, & having heard what may be said by both parts, to give such council & advice as God shall direct them unto by the light of scripture & reason, & in case it be not embraced, that then the determination of the messengers may be presented unto the Court that so it may be duly considered; And the whole church belonging to Mr Russels charge lately of Wethersfield, is to be acquainted herewith that they may prepare themselves for this hearing!"

Messengers regarded to meet at Wethersfield the first Tuesday of November, & provision to be made for their entertainment by those that are now residing at Wethersfield.

1660. Oct. 24. was Thanksgiving "for peace & plenty, health & liberties that we enjoy!"

1664 Oct. The Court on petition of Mr Pitkin & others recommend to ministers to consider whether it is not their duty to entertain all who are of an honest mind & of competent knowledge in the principles of religion & shall desire to join with us in church fellowship, by an explicit covenant, & that they have their children baptised — Such children to be accounted real members of the church, & when grown up to participate in the Lords Supper if qualified, &c. Those dissenting from this are requested to give light on the subject, &c.

1667. Bradstreet's Journal (Col. Rec. VIII. 376) says there was a synod called at Hartford to discuss some points concerning Baptism & church discipline in 166[illegible]. Nothing concluded but left the two parties Congregational & Presbyterian.

Wethersfield.

A church was orderly gathered at Wethersfield — and diverse members of said church have removed from thence without any notice given to, or allowance & approbation from this court, or the magistrates of this jurisdiction, or the churches here, some still remaining there through misapprehension, questioning the station & being of the said church, yet none have charged any offence or irregularity upon said church. That church is declared the true & acknowledged church of Wethersfield, & so to be accounted & esteemed. If any charge is brought against them, the Court will attend the hearing of each charge, &c.

Only 30 (not 31) males besides Mr Chauncey, and 49 females —
(one died before 1674)

There is an account of the Church members taken Dec 22. 1677. It contains no names except what are in the preceding list, and several of the preceding were dead. Of those belonging to the Church when in Dorchester, only these remained —

In Dec. 1677 there were in the Church only 37 male members and 41 females. Males had lost 14. and females 8. & no gain.

[These church matters seem to refer only to the church under Mr Chauncey — a large number had separated from it.

"Here I set down the names and ages of persons, both men and woman kind, that have been born & Baptized in Windsor church, and are yet unmarried, & not of those that have turned to the other society but live still under the churches cognizance."

Windsor Church

"June 21. 1668. It was by a vote of the church assented to that adult persons, be it husband or wife, that desired to have their children baptized by Mr Chauncey, should, if they presented themselves to the elders in private, and declared to their satisfaction their knowledge in the principles, & owned their fathers covenant, then they should nothing be required of them in public, until they presented themselves for full Communion."

"Before this time, it had been the practice to call such persons in public to stand forth and answer to questions of cat. . . . propounded to them, & to own the church covenant.

"And the time that Mr Warham first began this practice was January 31. 1657, and went on in the practice until March 19. 1664/5, which day he declared to the church, that he had met with such arguments against the practice concerning the baptising of members children's children, that he could not yet throw [off] at present & continue to go on in the practice as he had done, without scruples of conscience; therefore must forbear till he had weighed the arguments and advised with those that were able to give [advice]. Not that he intended to cast off the practice wholly but only lay it for a time, till he could be better able to answer his present scruples; for if he should act and not of faith, Rom. 14. would be sin to him. So the delay of it from March 19. 1664/5 was 3 years and 2 months upon the 19th day to the 21st of June, that Mr Chauncey set it on again" Vid June 21. 1668

Here note down the persons in order as they presented themselves publicly to obtain baptism for their children, layed down, & remains so still, & have not put on for with the other company."

1678 9. Feb 16. Jos. Skinner having never been baptised, desired that he might be baptised, and the church granted it, so he would be tried concerning his knowledge & blameless life, & own the church covenant & come under discipline — to be owned as a . . . member, and so any others might come in like manner — men or women kind".
March 2. It was no way layd any blame on him as to his communion, he owning the covenant & was baptised.

"May 18. 1674. I have set down anew the time of the birth of children that have been born in Windsor, that have come to my knowledge; & enter them upon in this old book, that being full, there is no place to set them in order to find them. Here I enter persons as they were set upon the latter."

The author of this record (perhaps Matthew Grant) makes the number of births, 1025; but he has John Pettibone's 3 children & Nicholas Palmer's 4 children down twice — and has in adding made 2 more than I do —

He says 128 of these children are dead (ver Aug. 17. 1677)

Capt John Mason's family — said to be from Norwich records

Deaths & flood of 1638-9

"Aug 17. 1677. – I find on an old book that March 10. 1638-9 it was reckoned from the beginning of the plantation hither to that [time] there had died of old and young 27, but not their names expressed; but two that were members and the Captain's wife; of children 16; of servants 8. – March 14. 2 youth drowned, being in a canoe on the flood gathering up of pulles [or palles, perhaps, pales meant] swimming on the flood against Thomas Dewey's house. Mathew raysed [ancestor] Henry Cush. and that there had been born of children from the beginning to this time 40, but have not their names: And that the great flood began on the 5th of March; on the 11th day it began to fall, but by reason of much rain on the 12th day, it rose very high; on the 15 & 16 day it had fallen near 2 feet; but on the 16th day was much rain and great wind out of the south-east which made it an exceeding great storm; it indangered houses and broke down many trees, so that by the cause of wind rain, all the 17th & 18th day, the waters rose very high, more than ever had been known by the Indians; it drowned many houses very deep, and indangered cattle over the river: for all the ground there was drowned to one little ridge where Samuel Grant now lives. It carried away much timber & hay; it beat up palls [pales] out of the ground, and posts and rails & carried them away, and whole trees and all; on the 18th day at night there was great fear of another storm of wind & rain; it began but it pleased the Lord it ceased quickly, and by the morning, one might perceive the water had begun to fall, & so it continued. On the 22 day at night it was well fallen, & yet it was as high as the highest flood we had known before.

August 17. 1639. Mr Hewit and Divers others came up from the Bay to Windsor to settle here.

"Goodman Mattock" of Windsor was a blacksmith and bought iron & steel of Mr Pynchon in 1653. was there in Feb. 1653/4 also

"I here note down concerning brother Lt. Wilton; he died remove from Windsor church to go to Northampton to help further a church there the beginning of.... March 25; and more Feb 6. 167[illegible], he was buried here in Windsor; he died the day before."

Windsor.

In Doct Harris History of Dorchester in His Collec. Hesays in Sept 1633, John Oldham (afterwards killed by Indians) and Samuel Hall (who died at Malden in 1680) travelled to Con. River & 2 more to see the country and trade with Indians. The Sachem treated them kindly &c. Their flattering accounts induced a number to go there in the summer of 1635. They settled upon a place called by the Indians Mattaneag or Ouschankamaug. (He refers to Hubbard.) H. Col. 9d Vol. 1st series.
100 persons went to Windsor 1635 - settled opposite mouth of Scantic.

Hubbard has "Mattaneag or Cuschankamaug" - as quote in my place of His. Col.
(Ankamaug is probably same as Accomack - "on the other side"? Cusch - may be Kishke.

Windsor & Hartford.

They Divided the Lands — Deed of partition Feb 1731-2

Hartford had 4 parcels. In 1732 April, Hartford appointed a committee to divide the lands among the Proprietors.

1 Parcel one

Friday July 12. 1839. Came up to Windsor about noon

Some people haying — more would be if the weather were not so bad. They do not consider the season backward — though not so forward as last year. Crop about middling. Corn about 3 & 4 feet high — few pieces show tassels. Rye has changed color some. Apple trees, made brown by worms, are putting forth new leaves & growing green again

July 13. Was about in various streets to see the ancient seats and lots of the first settlers — Roads & lots have altered but little. Windsor is stationary — and in some respects retrograde —

July 14 Went to meeting at old meeting house — Mr Jewett preached — but few there — Not ¼ filled — prospects of rain kept some back. Square pews, but inside of house looks pretty well for an old one.

P.M. was at the Methodists. Very few there — rainy. Minister delivered an orthodox sermon — & prayed well — but nothing out of the common order. Women occupied one half & men the other. House small but the best order.

July 15 Rainy. Kept my room.

July 16 Fair. On Records. and examining old sheets &c.

July 17. Visited burying ground. Carried books back to Town Clerk's office.

Came home through Pequonnock, East Granby & Turkey Hills, West Suffield, Feeding Hills, Westfield &c Toll bridge not rebuilt — went up on South side of Westfield River, some distance — crossed a Little River, & still another Little River. Did not cross the large river till we came out of Westfield to the north of the village.

William Westwood (who lived at Hartford, and then at Hadley). In regard to some property; —

1707. May 13. Nathaniel Goodwin of Hartford testifies that he was about 70 years of age; — that he was well acquainted with Wm. Westwood, formerly of Hartford; that Sarah Cook, wife of Capt Aaron Cooke is his only child.

Same day Cyprian Nichols testified, aged about 65, that he formerly lived in the same house in Hartford with Wm. Westwood (13 years, a month) — often heard him say he formerly dwelt in Essex County in England and had several relations of the same name living there; that Sarah Cook is his only child.

Joseph Hecock of Durham, deceased. — Some dispute about property 1725-6. Feby. He left a widow (not first wife) Mercy (Wright) apparently from Wethersfield, who had a daughter, Mercy, Wright. He left a son Joseph. — and the Hecock who married Catherine Phelps of Northampton seems to have been his bro. In Feb 1725-6. Catherine Hecock and her mother Mehetabel King testified at N.H. as to what took place when they were at Durham in Oct. 1725, between the widow Mercy & the son in law Joseph Hecock.

Hockanum.

3.286 Thomas Edwards was called a principal inhabitant at Hockanum 1663—he & others at H. went to build a bridge over the brook at Sadler's Ordinary*, and another over frog brook.—to lay 3 trees so that horses could pass over. Treasurer to pay them 10/. This to mark the way from the common way to Frog brook. 1663.

[This was perhaps the way to Colchester &c. at a later period.

East side the River in Windsor, Hartford and Wethersfield. There was a dispute about fencing in the E side between proprietors on west side and settlers on east side. The former did not like to fence for benefit of the latter. The latter contended that they ought to fence. Court decided 1667 that the proprietors need not fence their land. There had been difficulty sometime. In 1669 G. Court decided that improved & improvable land on the east side of the 3 towns must be fenced by April 30. 1670. May 1670. time extended to Dec 1. 1670

Samuel Willis, 1670 Oct. had liberty to extend his lot at Hockanum and Nabeuck one mile eastward. (This accounts for his lot being 4 miles long.

* Sadler's Ordinary, above, was at a later period, on the road from Glastenbury to Colchester (same road as that from Hockanum to Colchester, through Glastenbury, S.E. & N.W.) It seemed to be a piece of land with some meadow, between Glastenbury South line and the Great Pond just below the line & now in Marlboro. Perhaps it was on Glastenbury line. (See Thos. Dickinson's patent.

"Assowansuck" is said to be a valley near Sadler's ordinary, or at the place.—called Wassuck often now adays.—Is not this the Assowaut on Uncas' west-line, 10 or 12 miles from Haddam Rock? Seems too far north.

Henry

S. 209 Rev. Charles Chauncey of Stratfield, had a wife before he married Sarah Wolcott, daughter of the Gov. Henry Wolcott.

He is said to have had by first wife

son Israel; — not known what became of him (was Polly Burr)

son John. baptized at Pequonnock (Stratfield) Nov. 10. 1695.

by Sarah Wolcott

Abiah — baptized Jan. 29. 1699

Robert " Nov. 2. 1701

Ichabod Wolcott " Jan 9. 1703

The mother died Jan 5. 1703-4 (soon after birth of last child.

On Mr Chauncey's gravestone, is said to be the following Inscription. "The Reverend Mr Charles Chauncey minister of the Gospel at Stratfield, aged 48 years, died December 1714." These must be an error in his age; he was only 46. His father was not married 48 years before. Probably the figures on the stone are 46 but almost illegible

P.S. He died Dec. 31. 1714 on Friday. Buried Saturday. See Miscellaneous No 4. 129.

Robert Chauncey, brother of Rev. Charles was a physician in Bristol, Eng. and became wealthy — is said to have sent for his nephew Robert to come to Bristol, but he did not go. Afterwards sent for Ichabod Wolcott who consulted with Rev. N. G. of Durham about going in 1720; did not go then, but graduated at Yale 1723. Is said to have gone afterwards & was about to marry his cousin Ann, daughter Dr. Robert. at Bristol when he died a few days before he was to be married.

Abiah married Col. Hall of Wallingford — had son Chauncey Hall.

Robert, son Wolcott Chauncey married Ann Brown, dau. of Jos. Brown of New Haven had 10 children — Isaac, late commodore, was 5th child born 1772 & died Jan 27. 1840. The 10th was Wolcott, the last who died 1735.

Robert married Hannah Wheeler — had son Wolcott 6th next above and 5 daughters.

John born 1695 is said to have been lost on the way to England. There is some Tradition in the above, not entitled to full confidence — perhaps.

June 15. (Tuesday) 1859

Started this morning at 6 for Norwalk 24 miles. Went through Bethel, western part of Reading & Wilton. After leaving Bethel, the road went for ten miles through a forbidding country, with not many inhabitants. It was hilly, rocky, rough, & the road was most of the way by the sides of streams & not very bad. I saw here much laurel, some alders, brakes, &c. but no evergreens. All the fences were stone walls — some of flattish stones, and some of rounded stones like granite. As we approached Wilton, the country improved some; the high hills at the sides receded & decent farms appeared. Wilton (about 8 miles from Norwalk) is uneven & stony, but is not the worst of soils — some good farms. There were stone walls every where. This kind of land — short mossy, though stony, continued till we entered Norwalk street, a mile or so North of the harbor. Here it became more level & smooth, & fewer stones, but most of the fences all about Norwalk are of stone. The houses on the road very many, most at Norwalk are painted on the sides as well as on the roof. Some very handsome houses are so painted, & even meeting houses. Norwalk river, which we had been near, on a branch of it many miles back is entered by vessels, which come up to the bridge when the tide is in. A sloop or steamboat came there. There is a thick [illegible] rather dirty village near the bridge, composed chiefly of shops, stores, taverns, &c. which smell like some parts in the seaports. There is a road from this centre on both sides, which leads down by the side of the river to the Sound, and on both sides there are many farmers' houses. I went down on the east side about a mile to the old burying ground. It has but few stones ancient or modern. However one near the Town Hall is on a rough spot of ground, covered with weeds & bushes presenting an unpleasant appearance.

East of the bridge & thicket is a broad common, where the Cong. Meeting house stands — nearby is the Epis. & a Baptist. The latter is now building. This was probably the ancient square when the first settlers planted themselves. The Cong. meeting house is a large building; near by are two old fashioned stone horseblocks. Norwalk has many good houses, but the general appearance does not strike one very pleasantly. There is a good deal of medium or pretty fair land in the town, but none of the richest. Toward the Sound it grows more level. There is a Cong. M. house on the west side of the river, a mile down, nearby. I paused by 4 houses in the place — mostly at town Clerk's office, and started for Fairfield at 3½ P.M. I paid 30 cents for a dinner at N. — what I never did before.

June 25. 1839 Fairfield

The land from Norwalk to Fairfield is better than I anticipated. It is rather stony & hilly, and stone walls are the fences in all directions; but it appears to be strong land, and is mostly covered with grass, and the farms, many of them, look well. For some reason or other the corn & other things seem to be more backward in the southern part of Connecticut, than in places further north. Corn is generally half hilled, & hoed twice, & that is all that can be said.

About 3 miles from Norwalk, is Westport, a town & village on both sides Saugatuck river — Epis. W. side & Cong. E. side. Sloops come up to this village. 3 or 4 miles further East is a large Cong. meeting house in the parish of West Farms in Fairfield — a parish of farmers. So to Fairfield, is generally hilly. Water south & pass through the farmers Pasture & swamp, & came to South post of place newly built up, with a Cong. church. Then is a harbor there. We then proceeded northerly to old Fairfield, which is found to be a very fine village & we were much surprised to find it so pleasant. Here again the houses, even the best of them, are on the sides of the street. Cong. meeting house is covered in this manner. The site of the village is on an extensive plain, or plain like the soil less stony than it is further west, but rather hard, with small stones. There are stone walls here also.

June 26. 1839. Wednesday.

I was at a poor tavern with high prices in Fairfield. Cookery bad. In Town this forenoon. Fairfield seems to be a quiet farming village, without much business or bustle. Streets & building are neat. The country around appears to be good land. Cong & Epis. churches. At 2 in P.M. I set out on foot for Stratford; and arrived at 5 — distance 8 miles. Soon after leaving Fairfield, crossed a body of water that empties at Black Rock Harbor, a mile & two East of Fairfield — or it may be only water setting back. A good country from F. to Bridgeport 4 miles. Farms looked pretty well; but were covered with white daisy. Bridgeport is a city & seems to be a populous busy place. I only passed through it. It has 2 Con. Bap. 1 Epis. & I believe one Meth. meeting house. It is on the East side of a bay, where were several vessels, & an appearance of considerable navigation. Across this bay is a bridge 1/4 of a mile in length. Bridgeport is on a plain, but rises towards the north. It has a fine agricultural country around it. It includes a scattered village on the east side of the bay. A good country from Bridgeport to Stratford. But few stones between Fairfield and Stratford. Most of the land in grass — not much ploughed.

June 26. 1839 Stratford &c.

Easty Bridgport bay. is another bay like body of water setting up into the country & uniting with the bay below, and making a point of Land between. The sound was often in view on this route. Shingled houses continued. Vegetation had a fresh, lively appearance, but not very forward. Herds grass fully headed out but not in blossom. White daisy and red clover are but little past the full blow etc, — have decayed but little. Saw one field of clover mown — the only hay I have seen. The farm houses and others from Norwalk to Stratford generally looked well — there were but few dilapidated buildings — but few lights of glass out. Geese are in the road in all the towns, Hogs & cattle in many.

Remained at Stratford 1 hour — & started for New Haven in the stage at 6½ — distance 14 miles. Stratford is built on a plain like Plainfield — not a pine plain, for there are no such. Not a large place — looks pretty well — lives by farming chiefly. Cong. & Epis. m. house and probably more. To Milford 3 miles, the country becomes more rough & stony. Soon after leaving Stratford we crossed the Housatonnuck, a broad stream — seemed almost equal to the Connecticut. Its banks down to the sound, and also to the north, were green and pleasant slopes. but no village or even house to be seen near it

Milford had more brown, unpainted buildings than any place I have passed through, & few houses are thick. It has a broad Street, running E. & W. and other streets. It is on a plain, but the land rises round it, and it seems to be rather low. It has 2 Cong 1 Meth. & 1 Epis church, and many good buildings, but its appearance is not so neat as some others.

From Milford to New Haven, the land gradually grew more uneven, & less fertile. & for 6 miles or so, there was not a house by the road. As we approached New Haven, the land was more sandy & poor, and some cedars & hemlocks appeared. It was evening & I could not see much of the country. Arrived at N. Haven at 9¼. — could not find Parkman.

June 27 Thursday. Remained in N. Haven in Town Clerk's and Probate Office. Parkman came home towards night. Received letters from Hunting[illegible]

June 28. Friday. Started from New Haven on the Rail Road at 2 P.M. & came up to Meriden. For many miles after leaving N. H. the road runs near the Edge of an extensive salt marsh, containing thousands of acres. After this the road for many miles runs on the most barren looking pine plain that I ever saw in New England. Many acres have not a green thing on them — are mere blowing sand. The land is better as we approach Meriden.

At Meriden took tea & walked 10 miles through Kensington (in Berlin) to New Britain (in Berlin). I went at first due from Meriden, & then turned N. and passed through what is called the Cat-Hole. Here the Meriden Mountain is divided & the road passes through the steep gulf between them. On each side are perpendicular rocks and below immense quantities of stones that have fallen off. It is all greenstone, & many of it in singular pieces, like those about Holyoke. These rocks or stones are in place & not all were on the mountains, at an angle of about 45 deg. and that come down near the road on each side. This is the Cat-Hole. The two mountains recede from each other gradually, and at 3 miles from Meriden good land and buildings begin in Kensington. The east mountain is lower than the other, but for some miles the valley between is Kensington — somewhat uneven, but in general good land. The soil is red ish — a good region. The apple trees from New Haven up (and to this side, in New Haven) are all killed down by the canker worm, but there was no appearance of the worm on the west side of Meriden & Farmington Mountain. Kensington has 1 Cong. min. Reuben Hall James. —— Staid at New Britain. Called in Evening to see Philip Judd

June 29. Saturday. Staid at New Britain till 10 o'clock. Philip Judd went with me to various places, — brass foundries, lock factories, &c. It seemed to be a busy place, and increasing. Cong. meeting house is of good size than a steeple — 3 others without steeples, viz. Meth. Epis. & Baptist. Much business done here many buildings erected within a few years. The land in New Britain Society is pretty good — soil reddish — but face of country uneven & in some places unproductive. Canker worm here, as in all places east of Farmington Mountain. White Daisies every where. Corn backward. Rye every where good. Grain said to be thin. I found in New Britain the object of my researches, or rather a descendant of Elizabeth Judd, who owned land in Ohio. I had undertaken to hunt her up for a man in Gallipolis, Ohio, who had sent me money for my expenses. On my route I attended to other things as well as that. Philip Judd is a grandson of Elizabeth Judd.

At 10 started for Hartford, 9 or 10 miles, in a one horse wagon with Mr Winchester of Hartford. Went through Newington Society in Wethersfield — a strong reddish soil, inclining to clay. Left the meeting house east of us. About a mile east of that is a ridge running N. & S. very steep but not very high — apparently greenstone like all the stones in this region — went some distance by the side of it & passed beyond the Northern end in bounds of Hartford — a broken country along here — in Hartford crossed a greenstone ridge where great quantities of stone had been quarried — came into city or among houses, by the Asylum, perhaps a mile south of the college, & went on Rocky Hill road.

I thus returned to Hartford after an absence of 12 Days.
Wrote to Mr David Jenkins, Gallipolis, about Eliz. Judd &c

I read in Woodbury about a William Judd who once lived there, & called blind. In 1735 Wm Judd of Woodbury requested to be free from poll taxes in his "declining age," as he had lost one eye by the blow of a chip, & the other was much impaired. Was this son of Philip, born 1687?

Danbury

Monday, June 24. Walked out to Bethel 3 miles to see Phinehas Judd — then 2 miles further to see Deac. Eliel Taylor. Some rain. Bethel village is in a low place among the hills, with a Cong. & Epis. meeting house — most of the people belong to the former. This parish was organized & Hemmingway ordained 1760. Bethel is full of hills & vallies, but the hills can be cultivated to their tops. Land moderately fertile — some very fine farms — a fine extensive valley N.E. of the road. There are stones enough for stone ways. Soil here as in Danbury, rather inclining to be sandy. — Came back towards night, having walked to day 12 miles.

Danbury Street is 1½ miles in length — general direction N.W. and S.E. Many good buildings, but the street is on low ground, and the appearance is not so pleasant as some others. Making hats is the greatest business, but not so great as formerly. Perhaps 25 establishments. Next making shoes, and next be great saddlefactory. The town has many fine farms; the land is rather sandy but much of it is good. It is uneven & somewhat hilly, though there are several "Plains". The village is in a valley but not a deep one. There is considerable low ground near the village & extending towards Bethel that looks like good mowing, & is too wet to be ploughed. There is a stream near the village called Still River, that goes into the Housatonnuck.

Danbury appears better than I expected, & the people appear well for the most part. The village was still & quiet on the Sabbath except the going to & returning from meeting — so far as I could observe. The public house where I am, Mr. Mackey's is quiet and clean. There is said to be a dirty one in the village. The Universalist Meeting house has "Goodwill to men" over the front door, and "Good News" on the weathercock — a little ostentatious.

Feb. 26, 1844. Major Eber Judd of Madison, Con. died, aged 67.
(Son of Jonathan & grandson of Jonathan & g. g. son of Jonathan.)

Southbury, &c. June 22.

I left Woodbury on foot in a gentle rain (having purchased an umbrella) for Danbury, 21 miles. The road is on the east side of the valley of the Woodbury or Pomperaug river for 4 miles, just up on the edge of high ground. The valley for 3 miles below the Stoddard house is a succession of hills & hillocks, some round some long, &c. and they contain a great abundance of rounded pebbles. The hill or mountain west of the valley is steep and mostly covered with timber. The slope east of the road I was on is pretty good land. Below 3 miles, cultivated fields & houses appear on the west side of the valley — the valley opens and and the hills are less steep. On the road which I travelled there is a succession of well built, painted houses, — most of them, I conclude, farmers houses. It is seldom, that a street of farmers houses look so well. These 4 miles are partly in Woodbury & partly in Southbury. The Southbury Cong. meeting house is 3½ miles below Woodbury, & is not half as well repaired & taken care of as the houses of the people. At the end of 4 miles, the Newtown road separates from one leading to New Haven; the Newtown road continues Southerly 4 miles to the bridge across the Housatonnuck river, with but few inhabitants on the way. The land is in swellings & hills, rather sandy, & not remarkably fertile. Rye however appeared well. Here were a few cedars and hemlocks, the only evergreens I have seen since I left Farmington Plain. Most of the timber, here as elsewhere, is oak, chestnut, walnut, butternut, maple, &c. No stones, but rounded pebbles. At the end of 8 miles from Woodbury (it rained hard) I crossed a bridge over the Woodbury river, & two over the Housatonnuck, only a few rods above where all 3 come together. The H. divides a little above & forms an island. First I crossed the Woodbury river; then a covered bridge over the H. about 13 rods long, then a bridge over the other branch 6 rods long. The united streams form one and that is soon out of sight between the Mountains. From this river to Newtown is 4 miles. It rained most of the way. I first rose a long hill, or succession of hills, among stones and ledges of rocks. The rocks appear like those we call Sienmite near the Hatfield road. And there are many small angular fragments like the Greenstone of Holyoke. After 2 miles beyond the river, large fields of rye appeared in Newtown, but the country not very inviting. Passed through a mechanics village on a stream running N. Easterly. County grew better as I approached the centre — many stones & stone walls, and pretty good grazing land. Many fine farms appeared to the South & West, but mostly in grass. This is the first grazing town I have seen. In the centre is a Cong. Epis. & another meeting house. The Cong. looks sadly, the Epis. not very well but much better than the Cong. — the other is new perhaps. Methl. There are on the top of a hill where is a thick settled street running E. and S. & an appearance of business.

Newtown &c. June 22

At Newtown, I had travelled 12 miles on foot, mostly in the rain, with sirtout, umbella, & carpet bag with things. I performed it in about 5 hours & stopped half an hour or more. At Newton Hill I found a Stage from New Haven going to Danbury, & rode in it to D. about 9 miles. Many fine grazing farms appeared in Newtown — also some swamps, brakes, &c and a little laurel. Very little laurel is found in this part of the country. Westfield or the Eastern part of Newtown, and the East part of Bethel (Paris in Danbury) are not very desirable land. After arriving at Bethel village, 6 miles from Newtown the land is better towards Danbury. Arrived at Danbury about 6 — found Edward Osborn & called at Probate & Town Clerks Office — called at Mr Osborns in Evening.

Distance from Hartford to Danbury the way I came — to Farmington 9. to Southington 10. to Waterbury 10. to Woodbury 12. to Danbury 11 — in all 62 miles.

I observe no ravages of canker worm this side of Farmington mountain. The white daisy is every where. Rye generally is promising — it begins to turn white. Mowings, I should think, promised well. Herdsgrass just begins to show heads. Red clover & Butter cup yet in blossom. Some corn is big enough for hilling or 3d hoeing, but most has been hoed but twice, and considerable but once. I know not how things are at N. Hampton, but, I should think, quite as forward as in this region.

Newtown is full of stone walls — I have seen nothing like it elsewhere in Con.

Danbury Sunday June 23. I attended meeting in the forenoon at the Congregational Church. A respectable congregation — said to be much the most wealthy in the place. Nothing remarkable in the services. They sat during prayer, & rose only during the first singing.

In the afternoon I attended the Methodist M. house. Pretty full, but composed of "common people", as some choose to call them. Many one horse waggons about the house, that brought in farmers & their families. Not a few broad faced, broad waisted women, who had neither pinched nor starved themselves into fashionable littleness. The preacher was a tall, fine looking man, with a good voice, but his sermon was not above mediocrity. His object was to show that men were their own destroyers — almost a self evident proposition. He alluded some to the Calvinists, but was not very severe or pointed. The meeting house has 4 tiers of pews, of which the men occupied two & the women two — not two together, but the men & women were in alternate tiers. "a streak of lean and a streak of fat." The order of services was just like the Congregational — and they sat during prayer, and arose during first and last singing.

There seemed to be quite a gathering at the Universalist church and many well dressed young men & women. There is also a Baptist and an Episcopal meeting house, besides two small ones occupied by the Sandemanians, or something similar to them.

Sunday Evening, called at Mr Osborn's & his son White Osborn's. Looked at Mr. Osborn's meeting house, which he built for his society — only a room with benches and tables. The society has much increased lately — has about 35 members, and they are about building a meeting house 38 by 26 feet. Reformed Baptists, Mr Osborn calls them. The Sandemanians have a small society & house.

June 21. 1839

Rev. Anthony Stoddard's old house in Woodbury — probably 130 or 140 years old. It is a two story house in front with the roof quite steep, coming down to one story on backside. It has the old fashioned 2 story Leanto or porch in front — the only one known in these parts. This part lower story is not far from 10 feet square — perhaps 10 feet from house & 9 in width. (House points the east.) The upper story projects 18 or 20 inches over the lower one in front, & on east — the two sides go up straight. No pendants or ornaments about the corners. All clapboarded & painted red once. The roof is steep like the large one — the eaves are the same height as those of the house; the roof of the part reaches almost half way up the roof of the house. The lower story has 2 windows, one each side, about 12 by 18 inches, and a door in front. The upper story has one window in front & one at sides. The inside of porch is sealed up & has an oak floor and it includes 4 or 5 feet of the house, so that a door open to right & left into the rooms, only porch. The chamber stairs are at W. end of porch. The upper room in porch is a very pretty room — say 9 by 11 or 12, sealed up. The S. chamber is sealed up but the North one is plastered now. The S. chamber has a large fire place — larger than most kitchens at present day. The fire places below are reduced, but were huge ones in former days. There are 3 large rooms below, viz. 2 front ones, and a kitchen behind, evidently put on after the other part was built — hence the long roof on the back side. The sills are still sound in the lower front rooms, the floor being let down two or three inches below top of sill. Some huge sticks of timber in the building. Each of the front rooms had a window in front & one on end — kitchen has one on end & one back side. House about 34 or 36 feet long, & old or front part about 22 wide — kitchen behind 12 or 14 more in width. The lower N. room plastered — S. one sealed. Chimney of stone.

Remarks- 1839-

Came from Hartford to Farmington Monday June 17. Staid at Fi. 3 days. & was busy enough.

Thursday June 20. Rode to Southington in Stage. For 6 miles, it is mostly a plain - rather sandy clean - a white birch country. Not many buildings below when Kensington & Southington wards separate, except at Plainville on the Canal. Mountains on East, & also at some distance W. After 16th mile stone (from Hartford) land improved, & houses began - Road in a valley with sloping highlands each side - Mountains not seen. No stones except a few reddish sandstones. County uneven but not rough nor barren. Southington a good farming town. Most of the corn hoed twice. White Daisey in mowings & pastures. ——— Came from Southington to Waterbury 10 miles in a private wagon and on foot. Called upon Judge Bronson, & met with him, & went to his office, to the new Congr. Meeting house building, &c. Visited the grave of my ancestor Deac. Thomas Judd, who died 1747. Crossed the Mountain to get from Southington to Waterbury. The mountain & the country on Waterbury west is quite stony. Waterbury is full of manufacturing & other business, but the land is not very desirable. The Connecticut taverns are all rumholes, with a set of poor fellows about them. - Barrooms are very dirty as well as rummy. Red. bloated faces are too common.

Friday June 21. Rode with Mr Whittenden, tavern keeper, to Woodbury 12 miles, through Middlebury, nearly west: nearly all the way on the hills or highlands. The valley of Waterbury appeared pleasant from the highlands west of it - not a large valley. The first 5 miles were through a rough, rocky, stony tract - yet there were many farm houses on this hard soil. Timber mostly chestnut, oak some hickory, butternut, maple, &c. The western part of Middlebury was equally uneven, but less stony, & presented many green hills & good grass farms, though stone were not a scarce. People seemed to be industrious farmers, & get a good living on these highlands. No taverns in Middlefield - a good indication. Congregational meeting house torn down & new one building - & a Methodist meeting house. Some good corn & potatoes & much rye on these hills. Not much laurel to be seen, & no brakes in general except in low wet grounds. Rocks in this region are some granite or gneiss & much sienite, and perhaps greenstone. Stones and rocks are dark colored - too dark for granite. In Waterbury valley there are innumerable rounded pebble, from the size of a chestnut to that of your head - In some places these stones seem to compose almost all of the ground, particularly in knolls & risings. White daisies are every where in Connecticut.

June 11. Woodbury occupies a fine valley, more extensive & pleasant than Waterbury. High lands on all sides but the South. The main street running North & South is very neat and pleasant. Almost all the buildings white. 2 Cong. 1 Epis. & 1 meth. meeting house. The soil of this valley is warm & kind, though not the richest. There are some very fine meadows on Woodbury river, but not extensive. The uplands in places are full of the small pebbles, rolled as in Waterbury, but not as large. They seem in both places granite. The soil is much better than that of Waterbury. East of the street rise mural precipices one above another — nearly perpendicular — some 100 feet close by the street in one place &c. To the South and East fine farms towards Southbury and the rolling hills to the N. & W. look green & smooth & fertile. The main street, commencing where Middlebury & Southbury roads intersect, extends N. about 1/4 of a mile, then divides into two, one N.E. & one N.W. The former is thickly settled for some distance, & 1 Con. & 1 meth. meeting houses are on this. The E. has many buildings — almost all white on both. Halfway up the main st. another road turns off to the west into the "Hollow" where are several buildings. The rocky walls do not extend N. quite to the North division of the road. Many shade trees round some buildings. A Masonic Temple building on the top of a rock 10 feet high — a small useless contemptible affair — not quite so pernicious as the long bowling alley building in Waterbury — Ninepin alley.

4 or 5 Satinett factories in Woodbury but no very large manufacturing establishment. Peace seems more quiet and less bustling than Waterbury

I called upon Mr Smith, Judge of Probate, upon Rev. Mr Andrews one of the Cong. ministers — has been here 20 years — upon Johnson Stiles Esq. an intelligent man about 86 years of age, a grandson of Aelino Stiles and of Rev Anthony Stoddard. — Upon Lewis Judd a merchant from Watertown, & Wm. Judd, a farmer — both from Bethel. I visited the old house erected by Rev Anthony Stoddard, situated west of Main st. just where Main st. separates into 3 roads — 2 of them Middlebury & Southbury. I visited burying ground.

Tavern in the evening full of rum drinkers — noisy enough last night like every other tavern I have been in, in the evening. Taverns are sustained by town grog-drinkers every where. I went to bed after 1 o'clock, and then lay down on the carpet and slept the rest of the night, rather than sleep in a room with two pedlars. The musketoes were about to night — the first I have seen this season.
